March Theme: Commitment

"They say that people are innately afraid of those who need them, they say that people are afraid of 'clinginess', afraid of attachment, afraid of being needed by another. But I beg to disagree. I believe that people, when looking at someone who is needy of them, see themselves and see their own fears and they go away because they can't handle those fears; it's their own neediness that they're afraid of! They're afraid to want and to need, because they're afraid of loss and of losing, so when they see these things in another, that's when they run away. Nobody is actually running away from other people; everybody is really running away from themselves!" – C. JoyBell
